I am a passionate front-end developer with a strong aptitude for problem-solving. Proficient in React, Redux, HTML, and CSS, I have honed my skills through collaborative teamwork on various projects. Eager to expand my expertise, I look forward to diving into the realms of data and machine learning.

EXPERIENCE

2022 – PRESENT

REACT DEVELOPER, SIMORGH STARTUP COMPANY

Company name: Dorrin Puyesh Simorgh (Simorgh)

Location: Iran, Qazvin, Qazvin, Noorozian Street, Imam Khomeini International University, Puyesh Building, Room Number 8

Key responsibilities:

- Front-End Development:** Led and contributed to the development of web applications using React, ensuring responsive and user-friendly interfaces for our projects.
- Cultural Department Website Project:** Played a significant role in driving the development of the Cultural Department website for Imam Khomeini International University. This included:
 - Collaborating with team members to gather requirements and design a user-focused platform.
 - Implementing features to showcase cultural events, and student activities.
 - Gathering user feedback and conducting usability tests to enhance the website's functionality.
- Team Leadership:** Stepped into a leadership role after replacing a team member and maintained a positive and collaborative work environment, resulting in improved team cohesion and productivity.

Achievements:

- Successfully stabilized the project after joining, resulting in a more reliable website for the Cultural Department.
- Effectively managed technical challenges and provided guidance to the team, resulting in improved overall project efficiency.
- Received positive feedback from the university's Cultural Department for creating a user-friendly website.

Technologies Used:

- React, JavaScript, HTML, CSS, Material UI, Responsive Design.

EDUCATION

2019 - 2023
